We are pleased to report that the circulation again shows an increase over last years' total. The non-fiction and magazine circulation show a substantial gain. This is always encouraging to note as it shows an indication of a growing taste for reading along educational lines rather than wholly for pleasure. Book prices have risen more than 46% in the last decade but our budget has not kept pace with this increase. A substantial increase in the library appropriation is needed in order to meet the demands of the readers. Increasing the library appropriation would help us to buy the expensive science and technology books we need and also leave us funds to maintain a good selection in other fields.

During the past year many soiled, worn and obsolete books have been removed from the shelves. We have been the recipient of gifts of books and magazines which are greatly appreciated. We are fortunate to have the bi-monthly visits of the Bookmobile. It also visits the elementary school and leaves many books.

In April the library observed National Library Week. There were new books on display during this week in the

window of the Karacas Block. Miss Patricia Smalley painted several excellent posters. These were on display in the windows of the Community Room, Karacas Block and also in the library. A used book sale was held and approximately \$10.00 was raised. We held a story hour on Saturday morning. Misses Maryann Kerylow and Joanne Preston, students at Keene Teachers College, entertained the children and refreshments were served. Saturday afternoon we held open house and served punch and cookies.

At the beginning of the school year, Mrs. Sikoski's English classes visited the library to receive instruction in the use of the library and its tools.

In November, National Book Week was observed. Special posters and book marks were sent to the schools and new books were put on display. A set of science encyclopedias was added to our reference section. These "up to the minute" books will be a valuable addition to our library.

The librarian wishes to thank the Board of Trustees for their help and cooperation during the past year. She also wishes to thank the teachers who have visited the library. A cordial invitation is extended to all the teaching staff and townspeople to visit the library to acquaint themselves with what we have to offer.

The teenagers and children continue to make good use of the library and on school nights, space is at a premium. The students are well-behaved, cooperative and a pleasure to work with.

Respectfully submitted,

SYLVIA E. FLETCHER,

Librarian

REPORT OF THE HINSDALE PLANNING BOARD

The Hinsdale Planning Board which was reactivated by a decision of the voters at the annual town meeting on March 14, 1961, now has the following membership:

Arthur Rice,	Member from Board of Selectmen
Jackson Tupper	Term expires in 1962
Russell Garfield	Term expires in 1962
William Howe, Jr.	Term expires in 1963
William King	Term expires in 1964
Clifford Stearns	Term expires in 1965
Russell O'Neal	Term expires in 1966

The Board has held six meetings during the past year, two of which were open meetings which Hinsdale residents were invited to attend to make suggestions for improvements in the town and its affairs. Members of the Board of Selectmen and Hinsdale Industrial Development Foundation have been present at the other meetings.

The Board has discussed a number of matters and wishes to recommend to the voters those listed below for consideration:

1. Support of article in warrant removing the office of Road Agent from the ballot and authorizing the Selectmen to appoint a competent person to perform the duties of a Road Agent. This person is to be directly responsible to the Selectmen.
2. Remove the office of Chief of Police from the ballot and authorize the Selectmen to fill this office by appointment. This person is also to be responsible to the Selectmen for the performance of his duties.
3. Print and make available for distribution the listing

of property assessments at the same time the tax bills are prepared and mailed rather than at the time the town report is printed.

4. Hold a public meeting prior to the Annual Town Meeting each year to explain and discuss articles in the warrant.
5. Adopt Chapter 36, Sections 19 through 34 of NEW HAMPSHIRE REVISED STATUTES ANNOTATED (Regulations of Sub-Division of Land).

Under this statute the voters may authorize the Planning Board to approve or disapprove plans showing new streets or the widening thereof—the regulations adopted by the Planning Board, if given this authority, would provide against subdivision of land as would involve danger or injury to health, safety or prosperity by reason of lack of water supply, drainage, transportation and would provide adequate light, air, and access of fire fighting equipment. The regulations may also prescribe minimum widths, depths, and areas of lots so as to avoid congestion.

The statute also provides a system of appeals and court review of decisions made by the Planning Board.

6. Establish the position of Town Manager to conduct the town's business affairs thereby relieving the Selectmen of these administrative duties. The Selectmen would fill the position by appointment, and the Town Manager would be directly responsible to them in the performance of his duties.

The Planning Board wishes to thank the Fire Department for the use of the Fire Station for its meetings.

Respectfully submitted,

RUSSELL GARFIELD,

Secretary

REPORT OF COMMITTEE ON SUPERINTENDENT OF PUBLIC WORKS

We do not find it feasible at this time to hire a Superintendent of Public Works. However, we see the need of such a position.

We suggest the Selectmen be authorized to hire a competent person to be in charge of highway building and maintenance, under their supervision, instead of electing a road agent.

This person could also supervise other departments in case of a vacancy or as the need arises.

The extra labor now hired by each department could well be pooled so it would be available where most needed and the same with trucks and equipment owned by the town.

Collection of rubbish, care of the playground, laying and repairing water and sewer lines, T.R.A. construction, repairing sidewalks and other town work could be efficiently and economically done under such a set up.

REPORT OF THE ELEMENTARY SCHOOL PRINCIPAL

To the Superintendent of Schools:

I herewith submit my first annual report as principal of the Hinsdale Elementary School.

The school year 1961-62 opened with an enrollment of 418 children in the elementary school. The teaching staff was changed in this respect. Miss Barbara Knapp replaced Mrs. Stanley in grade one, Miss Martin was hired to teach grade six, and Mr. Joseph Pelletier replaced Mr. Paul Davidson in the junior high English department.

The present enrollment is the largest ever recorded in the elementary school and contrary to the 1960 report, there is evidence that the enrollment will continue to increase in the future. However, there is no great concern over pupil housing at the present time in the elementary school.

During the year new books and supplies have been secured, not only for implementing the program as such, but more specifically to provide for the individual needs of the youngsters at each grade level. Our staff has been particularly conscious of the need for group teaching, not only in reading, but in the other tool and content courses.

Grades seven and eight are grouped homogeneously in a departmentalized program. The general consensus of opinion is that this allows for more intensified teaching at this level. Departmentalization has been extended to grades five and six. However, these grades are not grouped according to ability. This change gives us the rather unique situation where we have departmentalized classes for the morning session and a self-contained classroom in the afternoon. We now have greater content material teaching in the areas of English, social studies, arithmetic, and science. This system will raise the standards in the elementary school.

We had to deviate somewhat from the reading program that was initiated last year. However, the program has been modified to meet the needs of the children and at the present time the results are good in this area of instruction. We now have the foundation for an excellent reading program and further research will enable us to institute an alpha-phonetic program that will prevent reading and spelling failure.

Boys and girls in grades seven and eight are receiving instruction in home economics and industrial arts on a limited basis. There is no indication that the time element in this area will increase due to limited facilities in the high school shop department and large classes in grades seven and eight.

The lack of a gymnasium hampers the physical education program to a marked degree. Our children have wonderful playground facilities and good weather enables us to participate in supervised team play. However, during the winter months we are restricted in this area. At the present time the need for physical education is imperative. Cooperative efforts from the school and community will help us build strong bodies as well as healthy minds.

Our children continue to enjoy the services of the New Hampshire Bookmobile. Members of the Hinsdale PTA have been helping in the selection of books for each grade.

The cafeteria program has operated very satisfactorily under the direction of Mrs. Helen Bouchie with able assistance from Mrs. H. Stephens, Mrs. A. Stephens, and Mrs. E. Williams. Approximately 280 lunches are served daily in two divisions.

The school has had field trips sponsored by the Hinsdale PTA. These trips are a vital part of education and provide experiences that cannot be found in textbooks.

On November 8, an open-house program was conducted as part of National Education Week. Many parents attended and enjoyed the opportunity of conferring with teachers. We feel that such conferences are important and that parents should make a special effort to closely follow the progress of their children.

A testing program has been developed to learn more

about individual children. The results of this testing program will enable us to diagnose the learning process in our system and will help us make sound decisions of grouping and counseling. Tests will be administered to all children. The Iowa and Metropolitan tests are being used this year.

The music department has functioned very well under the supervision of Mr. Joseph Norton. In my opinion, this is one of the finest programs of its type. Our children and citizenry should indeed be very proud of the accomplishments made in this area this year.

Mr. Brandl and Mr. Bouchie are providing excellent bus transportation for Hinsdale youngsters. It is very comforting to have the services of these people who take such interest in the safety of those they transport.

The health services in the school have been excellent. Mrs. Bradbury has been very helpful to the children and teachers during the school year.

The school district is taking advantage of the National Defense Education Act the provisions of which provide matching funds for apparatus and equipment in science, mathematics, and foreign languages.

Mr. Harold Stephens has done an outstanding maintenance job. We, in the community, can take pride in our school. In the past year we have had many visitors and have received many compliments on its appearance.

In closing I wish to extend my appreciation to the Superintendent, the School Board, the teachers, pupils, custodians, and the community for their cooperation and interest in helping to make the school year a success.

Respectfully submitted,

Paul Christiansen,

Principal K-8

ANNUAL REPORT OF THE HIGH SCHOOL PRINCIPAL

To the Superintendent of Schools:

I herewith take pleasure in submitting my first annual report as principal of Hinsdale High School.

In as much as my appointment in Hinsdale began at the start of the school year, 1961-1962, this report will of necessity be confined to the outstanding proceedings of the school, beginning in September, 1961.

At the outset, I wish to report the following persons completed their public education, and were awarded diplomas signifying this accomplishment at Commencement Exercises held in the Town Hall, June 15th, 1961.

Jeanne Ella Aldrich	Marcellus Charles Howe, Jr.
Mary Jane Bernier	Albert Kenneth Hudson
Frances Lorraine Bordner	Mary Elizabeth Johnston
Robert Allen Brandl	Jean Ethel LaClair
Lois Jean Burnett	Carol Ann Mecheski
Linda Diane Capen	Jacqueline Ruth Preston
Ronald Edward Clark	Mary Lou Royce
Kenneth R. Clough	Robert Henry Simonds
Kristine Alice Clough	Donna Lucille Smith
John Stearns Gilson	Wayne Edward Sprague
Anne Carolyn Girardin	Marilyn Dorothy Stanclift
Barbara Ann Goss	George Emery Stephens
Rita Linda Hastings	Shirley Ann Stephens
Bertha Ann Higgins	

Of these graduates, twenty-five percent are attending post-secondary educational institutions, with the remainder of the class all enjoying gainful employment or serving with the Armed Forces.

Again this past summer, the High School was fortunate in

having one of its students selected to attend the Advanced Studies Program at St. Paul's School in Concord. This program not only brings great educational benefit to any student so honored, but also serves to bring credit to that student's school and community. It is my hope that this summer affiliation with St. Paul's, now established, may be continued to the advantages of all concerned in the months and years to come.

At the opening of school this year, students returned to find that the system of class scheduling had been modified to include seven fifty-minute periods a day, with each academic class meeting five days a week at the same time each day. This type of scheduling allows a greater degree of consistency and continuity to be developed within any given curriculum. The only exceptions to this scheduling practice occur in the programming of the Shop and Home Economics classes for the seventh and eighth grades, these classes and grades meeting in the High School just twice a week, and, in the case of the boys, just once a week per grade division. Although I am greatly dismayed by the infrequency of these class meetings, space limitations in the present Shop and the large enrollment of boys makes this practice necessary.

In the area of instruction, we have revised the program of studies to include French I as an elective subject for our ninth grade college preparatory students. This advancement of the subject to a grade nine level will give us the opportunity, ultimately, to expand our foreign language program.

Upon careful examination of the method for reporting high school grades, it was felt that a simpler, more compact and informative type of report card could be employed. Accordingly, therefore, a new report card was developed which would embody these principles. The basis of the reporting and marking philosophy was that each student should be allowed to achieve to a maximum within his or her own ability. To do this, actually would be to educate a youngster more closely to his ability and needs.

An internal study is currently underway to determine

the course content in the various subject-matter areas so that some degree of unified program may be offered from grade to grade in each major subject, with the eventual goal being to upgrade the whole level of instruction within the school. Contemplated as an outgrowth of this study is an expansion and enrichment of our courses of study in another year. It is strongly urged in conjunction with this that our high school young people be encouraged to take complete subject loads where it is demonstrated that they have the commensurate ability.

In reporting on the various activities of the school to date, the revised and implemented music program must certainly receive mention. The High School Band opened its year with the Walpole School Fair in October, and at Christmas time, concentrated on preparation for the Christmas program. The High School Chorus received recognition through its appearances on both WRLP-TV and WBZ-TV. These programs formed an integral part of Mr. Norton's complete Christmas program for our schools this year. The major highlight, undoubtedly, was the Annual Christmas Concert in the Town Hall on December 21st. Future plans call for both the Band and the Chorus to make more major appearances, here and in other communities.

Our athletic activities have continued unabated this year. The Soccer Team worked its way into tournament play, but was defeated in a State elimination round. The basketball teams, both boys and girls, put maximum effort into their sports, but found the winning column quite elusive. Under the appreciated coaching of Reverend Gerald Miller, the Girls' Volleyball Team was reinstated this year, and enjoyed a moderately successful season. Of great interest was the inception of a High School Ski Team this past winter, which, in its first competitive meet, placed seventh in the State Class C Tournament. This standing reflected an achievement in which Hinsdale was confronted by all sizes of high schools numbering a total of twenty teams. We were the only entry from southwestern New Hampshire. I believe in future years Hinsdale will be offering the State stiff competition in this winter sport area.

Before concluding my report, I feel it necessary to make mention of the role the Guidance Department has played in our school this year. Mr. Megna's program, as established, provides personal, educational, and vocational counseling for our students. Unfortunately, the press of inaugurating such a complete program has detracted from the total time that is necessary for complete counseling.

In addition to his student work, Mr. Megna's program is so structured that he may provide his services to our teachers and to the administration on a consulting basis.

The activities of the Guidance Department to date have included the administration of aptitude, achievement, and intelligence tests to the student body, a series of radio programs outlining information for students in basic career fields, college visitations to area institutions with interested pupils, and a series of follow-up studies on recent Hinsdale graduates. The Guidance Director has also been of invaluable assistance in the correct programming and placement of students in their proper class assignments. Moreover, as an essential part of his service to the school and community, Mr. Megna has referred several students to outside agencies for special help.

Currently, the Guidance Department is completing the building of a special library of occupational, college, and scholarship information. All of these facets of our Director's program have served to make Guidance an indispensable part of our High School structure.

In conclusion, may I express my sincere appreciation to all those who have helped keep Hinsdale High School in the educational forefront of schools our size. I especially wish to thank the teachers, pupils and school board, without whose support and confidence such strides of advancement might have been much more difficult.

Respectfully,
BRUCE E. STEWART, JR.
Principal

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Hinsdale:

I have the honor to submit my first annual report.

STAFF CHANGES: High School — The following changes in the faculty of Hinsdale High School were effected as schools opened in September. Mr. Bruce E. Stewart, Jr. former teacher in the Keene School District, was elected as principal to replace Mr. Robert A. Girardin who resigned to accept a position in Foxboro, Massachusetts. Mr. Stewart received both his Bachelor of Arts and Master in Education degrees at Northeastern University in Boston, Massachusetts. We were fortunate in securing the services of a qualified guidance counselor in the person of Mr. Nelson J. Megna. Mr. Megna is a graduate of Keene Teachers College and work toward his Master in Education degree at the University of Massachusetts has been nearly completed. Mr. Owen F. Matthews replaced Mr. Richard J. Thompson as Science instructor who resigned due to military service plans. Mr. Matthews is a graduate of Harvard University. Mr. Claude W. Webster, graduate of Keene Teachers College replaced Mr. Loring G. Williams as Industrial Arts instructor. Miss Mary Ann Martin, graduate of Keene Teachers College and former Hinsdale grade 7 and 8 teacher, replaces Miss Elizabeth M. Swancott, Social Studies and English instructor, who resigned to accept a position elsewhere.

Elementary School — Mr. Paul E. Christiansen assumed the duties of elementary school principal. He is a former Dublin, New Hampshire, elementary school principal and graduate of Keene Teachers College. Requirements for his Master in Education degree from Keene Teachers College have been nearly satisfied. Miss A. Barbara Knapp replaces Mrs. Priscilla

T. Stanley as teacher of the first grade. Miss Knapp is a former teacher in Laconia and Lakeport, New Hampshire, as well as in the U. S. Army dependents school in Japan. Miss Knapp graduated from Keene Teachers College. Upon the resignation of Mr. Paul H. Davidson, teacher of grades 7 and 8, Mr. Joseph G. Pelletier was elected. Mr. Pelletier is a graduate of Atlantic Union College in Lancaster, Massachusetts. An additional teacher, needed in the sixth grade area, was elected. Miss Theresa Ann Martin, former Swanzey seventh and eighth grade teacher and graduate of Keene Teachers College, has taken this position.

In comparing the current enrollment figures with those of a year ago, there are 16 more pupils enrolled, 11 in the elementary school and 5 in the high school.

The above figures do not take into account pupils who might move into Hinsdale or pupils who might move out. Also, possible dropouts are ignored in the table of figures. Obviously, the most recent figures are the most reliable. Although the above statistics should not be used as a basis for absolute predictions, they are indicative of possible trends.

Hinsdale School Facilities: The elementary school plant is by all standards excellent. Half of the spacious all-purpose room was lost by the gaining of an additional classroom. However, this has resulted in class sizes that are in no instance excessive.

The Hinsdale School Board, the School Planning Committee and the citizens of Hinsdale are to be commended for their efforts in bringing about secondary school facilities which go a long way toward solving their school housing problems. Upon the completion of the new Hinsdale High School, the citizens of Hinsdale may be rightly proud of their school buildings. However, it should be realized that when the new state secondary school standards come into existence, there may be a need for some careful planning in the adaptation of the high school to satisfy the new requirements.

Educational Improvements: The citizens of Hinsdale want the best possible education for their children. The Hinsdale School Board shares this wish and is striving to see that it is accomplished. In order to improve instruction as well as to provide for more efficient supervision, we now have an elementary school supervising principal and a high school supervising principal, each a specialist in his particular area. This action should bring about noteworthy improvements in both elementary and secondary education.

Hinsdale High School also now has the services of a guidance counselor. By providing good guidance services, coupled with programs which are as individualized as possi-

ble, the academic inventory should show results as satisfactory as possible within the limits of student abilities.

In conclusion, I wish to express my appreciation to the principals, teachers, pupils and parents, the School Planning Committee, the School Board and the patrons of our schools for their understanding and cooperation.

Respectfully submitted,

ROGER L. SUNDSTROM,

Superintendent of Schools
